What's the matter with Pennsylvania?

Why are people moving away to other states? Herman A. Lowe, writing in the Philadelphia Inquirer recently explains it this way: With all the opportunity Pennsylvania offers—good wages, jobs in a wide diversity of industry, commerce, mining and agriculture—what lack has been causing a substantial portion of its population to go elsewhere to work and live?

It might well be to the advantage of the state government to seek the missing ingredient needed to keep our people down on the farms and up in the cities of the Keystone Commonwealth.

Pennsylvania's pride was rudely jolted last year when the Federal census disclosed that California had passed it in population and had taken over as second largest state in the Union.

The reason lies in the migration figures. They are being brought out as Uncle Sam digests and studies more and more of the enormous volume of census statistics gathered in 1950. The final, corrected population figure for Pennsylvania, as of April 1, 1950, was 10,498,012. For California, it was 10,586,223. The West Coast state beat us

Wedemeyer Also Denies Wanting Reds And Nationalists United

Washington, June 11 (AP)—Lieut. Gen. Albert C. Wedemeyer backed Gen. Douglas MacArthur today in denials that they ever had favored a plan to bring the Chinese Communists and Nationalists together in a coalition government.

Senator Brewster (R-Maine), who left the closed door hearing, told reporters Wedemeyer also had testified he favored bombing Chinese bases in Manchuria, as MacArthur has proposed, and would do it even if it meant war with Russia.

(Wedemeyer also urged, Brewster added, that the United States "go it alone" on a naval blockade of China if other United Nations Allies refuse to impose such a blockade.)

The question became a sharp issue over the week-end because of testimony Secretary of State Acheson gave last week at the Senate investigation of MacArthur's dismissal from his Far Eastern commands.

Acheson read a 1945 message from Tokyo which quoted MacArthur, Wedemeyer and Adm. Raymond Spruance as favoring steps to "bring together and to effect a compromise between the major opposing groups in order to promote a unified democratic China."

Some senators interpreted the message as meaning the three men backed an effort Gen. George C. Marshall made later to bring the Chinese Nationalists and Commu-

Allies Drive Chinese Reds From Two Iron Triangle Strongholds; Foe Leaves Stacks Of Material

Tokyo, Tuesday, June 12 (AP)— Allied troops and tanks knocked out the props of the Communist "Iron Triangle" Monday and pushed almost three miles deeper into North Korea toward new Communist defense lines at Kumsong.

Tokyo, June 11 (AP)— United Nations tanks rumbled into Chonwon and Kumsong today, collapsing the Communist "iron triangle" in North Korea.

Thick carpets of mines slowed the tanks. But Red rear guards, armed only with rifles and machineguns, faded quickly before the blasting fire of American tanks.

Infantrymen moved in with the tanks over the anchors of the Reds' vaunted assembly area 20 miles north of the 38th parallel.

Lt. Gen. James A. Van Fleet, U. N. commander, announced "final seizure" of the area Sunday evening and the climax of a bitter eight day battle.

Civilians Cheer Allies

But the two towns were not actually occupied until about midday Monday.

The Eighth Army said they were entered five minutes apart — Kumsong at 12:55 p.m. and Chonwon at 1 p.m.

Hundreds of Korean civilians cheered the U. N. troops.

U. N. officers said the next good defense line for the Reds was 65 miles to the north. It would be based on the Pyongyang-Wonsan cross-country highway which girdles Korea just below its narrow waist.

Allies moving into Chonwon and Kumsong also cut the road between the two points — the only other cross-country highway in the southern part of Red Korea.

U. N. forces also seized control of roads leading northwest to the Red capital of Pyongyang and the east coast port of Wonsan which the navy has bombed daily for four months.

Keys To Big Bases
Chonwon and Kumsong were keys of the "iron triangle," spawning ground of Communist offensives and base for the first line of defense of Red Korea.

Greek, Turkish, Philippine and Thai troops fought over the last hills opening the way to sprawling Pyongyang valley for American tanks. The flat valley lands, controlling the central Korean road network, are perfect tank territory.

Reds pulled back toward Pyongyang, apex of the triangle, 28 miles north of the parallel. They abandoned huge stacks of equipment they could not pull out.

Red resistance weakened along the front except at one place — east of the Hwachon reservoir.

40,000 Lost By Reds
They sacrificed approximately 40,000 troops in the last ten days. Van Fleet said, trying to keep the Allies away from the triangle. The valley was the fountainhead of two Communist spring offensives.

U. S. Defense Secretary George C. Marshall said the Chinese "have got themselves into a difficult situation." Any peace moves, he said would have to come from the Reds.

"But they have the problem to face," he explained, "the importance of which is hard for us to understand."

NEW RECORDS MADE IN MEET AT HARRISBURG

Harrisburg, June 11 (AP)—Joseph Walker, LaSalle college freshman, and Art Pollard, Coatsville high school student, today are Pennsylvania's highest new track stars.

Walker set a new meet record of 12 seconds Saturday as he won the 220-yard dash at the 39th annual Middle Atlantic AAU track and field championships.

Pollard, the state's high school dash champion, won the 100-yard dash in the fast time of 9.8 seconds—only two-tenths of a second off Barney Ewell's four-year-old meet record.

Walker also finished right behind Pollard in the 100 while Pollard was hrd behind Walker in the 220. Walker also took a second in the 200 yard dash.

Top honors for the meet to pick the three-state area's representatives in the National AAU championships June 22-23 at Compton, Calif., were Vic Frank and Jim Gehrdes.

Longest Discus Heave
Frank, a former four-time IC4-A winner at Yale university, set a new meet record as he made the longest discus throw of the season in this country—169 feet, 8 1/2 inches.

The Philadelphia also won the shot put to make it the third straight year he has swept the weights events here.

Frank's record discus heave was a quarter-inch better than the previous season high set by Montana's Dick Owens at the Compton, Calif., relays last month.

Gehrdes, a former Penn Stater from Altoona, also recorded his third straight clean sweep as he won both hurdles events with ease.

Browning Ross, Pan-American games winner, regained his mile title by outdistancing Penn State's Robert Freeman in 4:17—two seconds off the meet record. Freeman almost caught Ross in the stretch.

James Reardon, captain of the 1948 Irish Olympic team and a Villanova student, beat out Bill Lockhart of Penn State in the 440 yard dash—best race of the day.

Only other record among the men was set by Frank G. Kieser, Philadelphia, who broke Bill Wilson's nine-year-old record in the two mile walk with a time of 16 minutes, 26.2 seconds.

Sports Roundup

By HUGH FULLERTON, JR.

New York, June 11 (AP)—The fight mob is having a lot of fun kidding around with the Louis-Savold tussle, with such tags as "the battle of the aged," the "middle-aged championship" and the "maturity stakes," but they have to take it seriously when Savold says: "Jimmy Braddock never owed more to Corn Griffin than I owe to Gino Buonvino."

... The parallel is too close. ... You remember the Braddock story, how old-timer Jimmy came off the docks as a substitute, knocked out Griffin in sensational style and went on to win the heavyweight title. ... Savold is older than Braddock was. He bounced, and was bounced, around more in the tank towns, fighting at county fairs, in tent shows, working his way up and going down again. ... But he was just another fat heavyweight with an undistinguished record when he and Manager Bill Daly heard over the radio that Joe Baksi had pulled out of his Garden fight with Buonvino. ... They headed right downtown instead of toward a fight in Connecticut and Daly talked the powers into accepting Lee as a substitute. ... Savold came through with a 54-second knockout and was on his way. ... Lee hasn't fought often since then, but he's no longer an overvalued heavyweight. ... And a guy who takes a mixture of yogurt and blackstrap molasses as part of his diet probably can make anything—even a Joe Louis haymaker.

MONDAY MATINEE
Tom Lovrich, the Southern California pitcher who looked very good to Branch Rickey during three inspections, hasn't lost a game on his home field except to the Yankees. ... He's Southern Cal's big hope in the College World Series, since Charles Ane, the 250-pound Hawaiian, hasn't any control. ... Cleveland's Bob Lemon figures the finest tribute he ever received was Ted Williams' remark: "He's so good I even worry about him in winter time."

DOTS ALL, BROTHERS
Mike Mizerany, Alabama's all-Southeastern guard, apparently has picked baseball over pro football. Although drafted by the Steelers, he chose to play first base with the Panama City, Fla., club of the Class D Florida-Alabama League.

WHITE SOX TAKE 4TH GAME FROM N. Y.; HEAD EAST

By JOE REICHLER
(Associated Press Sports Writer)
The cooled-off Chicago White Sox are all set to sizzle again. Why not? Aren't they shoving off today on a two-week swing of the east—the land of free and plenty?

New York, Boston, Washington and Philadelphia have been cities of paradise for the dazzling White Sox. Everything the American league leaders have touched there has turned to gold. They've still to taste defeat.

No wonder the White Sox look forward to their next 14 games with relish. They open the tour tomorrow night against the Senators, whom they've whipped five straight times, and close June 24 in Boston, whom they've beaten six out of seven.

Terrific Score
The Sox gave their delirious fans a terrific scare over the week-end, losing three straight to the Yankees. A near-capacity Comiskey park Sunday crowd of 52,054 was resigned to a fourth straight loss when the Yankees zoomed into a 4-0 second game lead after winning a 2-1 opener.

The Sox stormed back, however, coming from behind twice, to win the nightcap, 11-7, and gain a precious split. Thus the Sox start east with a two and a half game lead over the stubborn defending champion New Yorkers.

Boston's resurgent Red Sox fought back into contention, sweeping two games from Cleveland, 9-6 and 8-2, to take undisputed possession of third place. They trail the Sox by five and a half lengths. Detroit downed the Athletics twice in Philadelphia, 11-7 and 9-5 while Washington and St. Louis split. The Browns won the first, 10-9 and the Nats took the second, 3-2.

Dodgers Divide
Brooklyn retained its five and a half game advantage in the National, dividing a pair with Pittsburgh. The Dodgers eked out a 2-1 win in the opener and the Pirates copped the 11-inning nightcap, 5-4.

Two streaks were snapped as Chicago held the New York Giants even in a twin bill. After the Giants had won the first game, 6-1, for their fifth in a row over Chicago, the Cubs came back to gain their first triumph over New York, 7-3. They added injury to injury by smashing Sal Maglie's nine-game winning streak.

St. Louis moved within a point of the second place Cincinnati Reds, nipping the Braves in Boston, 5-4. The Reds, scheduled to play two in Philadelphia, were washed out by rain.

Two For Kiner
The Tigers bombed seven Philadelphia fingers for 26 hits including two homers by Dick Kryhoski and one apiece by Vic Weir and Pat Mullin in the opener. A six-run outburst in the third off Joe Coleman won the second game for Detroit.

Ralph Kiner blasted two homers to lead the Pirates to a split with Brooklyn. His second and 15th of the season came in the 11th of the nightcap with Pete Reiser on base.

DECISION DUE TODAY ON T-V GRID DISPUTE

Philadelphia, June 11 (AP)—Whether the University of Pennsylvania will stand pat on televising its football games in opposition to the ruling of the National Collegiate Athletic Association may depend today on what the doctor says.

The doctor is Hugh C. Willett of Southern California, president of the NCAA.

Penn yesterday offered to let the U. S. Department of Justice decide whether, "under the Sherman anti-trust act and NCAA constitution, the action of the NCAA in requiring the University of Pennsylvania to discontinue its 11-year record of televising football games on Franklin field is legal or illegal."

That's the way Francis T. Murray, Penn director of athletics, put it in a telegram to Dr. Willett.

At Spokane, Wash., Dr. Willett said he did not expect to be in a position to comment on the Murray telegram until today. "I cannot alone commit the whole association, you know," he added.

Seek Legal Advice
The doctor said the legal phases of the situation had been studied in the past and "we will consult our own legal advisor in the matter."

Murray quoted his counsel as saying Penn would be "in violation of the Sherman anti-trust act if we were to join in a nationwide ban or control of college athletic contests."

Penn was placed in "bad standing" for its stand and some NCAA members have stated they will not play Penn until it is restored to good standing by the association.

In Washington, the Department of Justice had no immediate comment.

But before the issue developed at Penn, the department announced an investigation to determine whether restrictions on broadcasting and televising sports events violate anti-trust laws.

The Gettysburg Times

ONE HUNDRED YEARS' AGO

Jenny Lind and Barnum have dissolved their contract and the "sweet songstress" had two concerts recently at Philadelphia, under her own name—which was quite "the rage." She will probably remain for some time in this country.

Married: On the 8th inst., by the Rev. J. Sechler, Mr. David Schwartz, to Mrs. Sarah Shriver—both of this county.

On the 8th inst., by the Rev. A. Richards, Mr. John McLean, to Miss Mary Ann, daughter of Mr. Jacob Grove, of Adams county, Pa.

On the 5th inst., by Samuel Durbin, Esq., Mr. Jesse Curran, of Carroll county, Md., to Miss Ann Maria Snyder, of Mountjoy township.

Desertion in the Army is beginning to attract serious attention in every part of the United States. The loss annually to government is enormous—every man who deserts, robs the government of \$50 directly, and indirectly of much more. One-eighth of the whole army deserted last year, and last month 16 out of 56 men of Captain Hatch's company, at Rochester, deserted.

Fire: We regret to learn that the dwelling-house of Jacob Cover, Esq., in Franklin township, was entirely destroyed by fire on Saturday. The roof caught by a spark from the kitchen chimney, and was all in flames before the family, who were at dinner, were aware of the fact. Most of the furniture on the first and second floors was saved. Mr. Cover had an insurance of \$800 in the Perry county company, which will replace a portion of his loss.

Strawberries are down to three cents a basket in New York.

SEVENTY-FIVE YEARS AGO
Returned: Rev. Mr. Buck and wife (daughter of Mr. David McMillan, of this place), missionaries of the M. E. church in India, arrived in Gettysburg on Thursday. They return by reason of Mr. B's impaired health.

Rev. Mr. Buck will preach in the M. E. church next Sunday morning at 10½ o'clock.

Borough Taxes: The Treasurers of Borough and School Taxes, for Gettysburg, are now ready to receive taxes, and grant an abatement of five per cent.

On the 9th inst., the workmen of Sect. 1 and 2 on the Berlin Branch railroad struck for higher wages. The contractors promptly discharged the ring leaders, and the rest went to work.

On Monday Mrs. Carmichael, the Superintendent of the National Orphans' Home at this place, was arrested on a warrant issued by H. G. Wolf, Esq., charging cruelty to one of the orphans, and held in \$300 to answer at August court.

On Monday, the 5th inst., while Sheriff Spangler was on his return from a sale in Union township, his fine bay horse took sick from a severe attack of colic, when near White Hall. Driving to the village, remedies were administered, but the horse died there.

On Friday evening the Battlefield Memorial association sold the grass on lots Nos. 1, 2 and 3, east of Cemetery Hill, to Charles Crosta, for \$18.75, and the right of pasture for four months on lot o Culp's Hill to R. C. Cobean for \$32.25.

Married: Miller-Musselman. On the 6th inst., in Fairfield, by Rev. E. S. Johnson, Mr. William N. Miller, of this place, to Miss Annie M. Musselman, of Fairfield.

Boli-Gross. On the 4th inst., at St. Mary's Catholic church, York, by Rev. Father Pape, Mr. Christian A. Boli, of York, to Miss Kate Gross, of Adams county.

Staley-Starry. On the 4th inst., at St. John's Lutheran parsonage, by Rev. E. J. Metzler, Mr. Pius Staley to Miss Mary C. Starry, both of Germany township.

Today's Talk

By GEORGE MATTHEW ADAMS

DELIGHT IN GIVING PRAISE!

I have always wondered why it is that so many people fail to praise others, especially those who may in a sense be competitors for public acclaim. I have always liked to praise those who showed superior talent—especially among writers and artists.

I like to read of praise given to a noted writer by another one as noted. It shows fine sportsmanship. I am glad and proud to associate with writers who are far better than I am. Jealousy seems such a waste of one. In a little blue book that rests upon my table I came across this sentence: "One cannot praise a man too much who speaks well of them who speak ill of him."

When we give praise to another we emphasize the worth of ourselves! What an easy thing it is to praise where it is merited anyway. And the bigger the man is whom you praise the more sincerely it is appreciated. Really great writers write for appreciation far more than they do for money. The more praise they get (not flattery) the better they write!

We are always being served by someone, and in turn we serve others. How far a kind word or a bit of praise travels! How deeply it is appreciated. It is always safe to tie to that one who is forever saying kind and complimentary things about others. I like to see worthy people honored in a big way, and I believe that most people do.

Note how pleased a child is after being praised, and how much more happily a manual laborer works when he is praised. Don't we all work better and more happily after being praised? Is it not food to the soul? We owe to so many a debt of gratitude for encouragement and inspiration rendered us, over the years. To give thanks and appreciation in return is the least we can do.

Pitiful has been the neglect the world has given to many of its greatest artists and writers. Many have had to die poor. J. F. Millet traded many a wonderful work of art in order that he might get bread for his family. It isn't the "first sellers" that live on. Learn the delight that returns to you from the giving of honest praise to one worthy of it!

Tomorrow Mr. Adams will talk on the subject: "Big Business."

OUR WORLD
From this belief I can't escape:
This world was given to us to shape.
Nor will the Lord who sent us here
With our decisions interfere.

God set us free from instinct's groove.
He gave men talents to improve
And trusted them when they were skilled
For all a better world to build.

The soil would still be bleak and bare
Without the gardener's constant care.

Of all things else 'tis also true
The wrongs we see are wrongs we do.

In all that's base and good we find
The faults and virtues of mankind.
To peace on earth for which we pray
God trusts in men to find the way.

Know These Garden Pests And How To Kill Them

These are the common insects for which some other insecticide than D.D.T. should be used by the amateur: 1, Mexican bean beetle; 2, tomato horn worm; 3, most aphids; 4, cucumber beetle.

Insects which attack vegetable and flower plants are usually specialists. They attack one variety or group of relatives, and their appearance can be foretold by experienced gardeners. It pays to identify them, and learn their habits, so that you may prevent them from damaging your plants.

NOTES ON JAPANESE BEETLES

Japanese beetles are launching their 1951 drive against many kinds of food and ornamental plants. And while many persons believe they can see a marked decline in the savagery of attacks in the last few years, the pests still constitute a serious threat that merits concerted defense action.

Every citizen, urban as well as rural, should know the life cycle of this foe in order to map an effective campaign of combat. Adult females deposit their eggs in late July, usually in grassy areas such as lawns, parks and golf courses. These hatch in a few days into small white grubs (larvae) which feed lightly on grass roots until late October, when they burrow deeper into the soil to spend the winter. In early April they move back up near the soil surface to feed ravenously on grass roots. It is at this stage of their cycle that Japanese beetle grubs inflict heavy damages to grass. In May they pupate and emerge as adult beetles again in June.

Trapping is advisable simply as a means of reducing the beetle population.

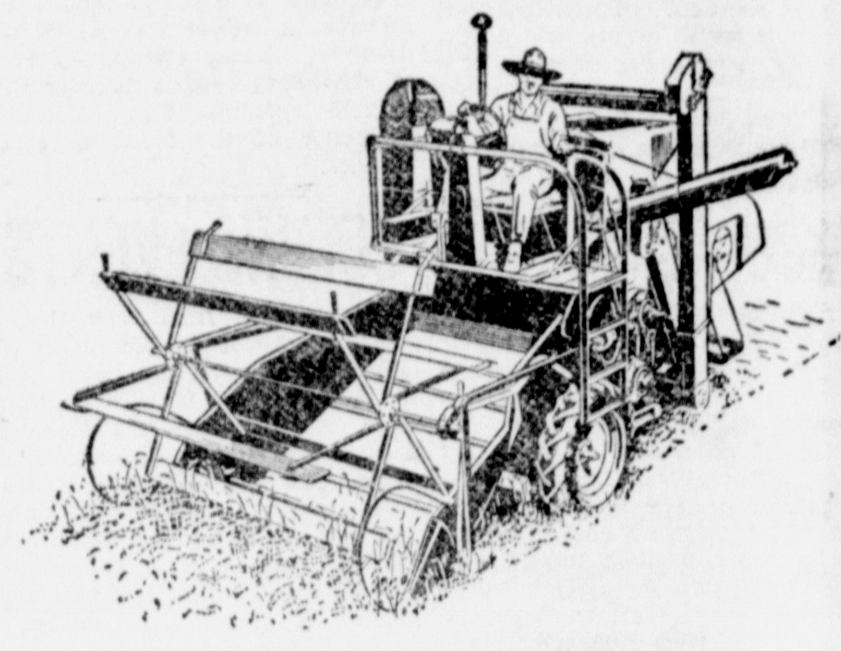

Neighbors should join in this phase of the warfare.

The grubs are subject to several diseases, the most important of which is called "milky disease." Farm supply houses, seed firms and nurseries sell named brands of dust containing spores of this disease. And while benefits are attained where individuals apply this dust, major results are gained only where all neighbors join. Effects are long-range in scope but highly desirable.

Birds continue as man's best and most dependable ally in this war. The final balance of power may be lodged with friendly song birds, also with quail and other game birds. Nest building, tree banding, killing homeless cats, inviting upland game birds with feed and brush shelter, and other constructive bird restoration measures are direct steps toward Jap beetle extermination.

Choice roses which would be rendered unsightly by spray residues should be covered carefully with mosquito netting before adult beetles become numerous.

ing with amazing rapidity. Use rotenone, pyrethrum or nicotine dust, or spray, immediately first specimens are detected.

Asparagus beetles are blue-black with lemon spots, one-quarter inch long. Use rotenone dust or spray while harvest is on, and these or D.D.T. dust or spray after the harvest.

Blister beetles are grey, striped or black, three-quarter inch long, prey on potato and tomato plants. Use rotenone or D.D.T. spray or dust, or calcium arsenate dust.

The striped cucumber beetle is one of the worst home garden pests, yellow body with three black stripes. It breeds in the blossom ends of cucumber, squash and melon vines, eats leaves and spreads disease.

Dust new growth as it develops with black composed of 1 lb. calcium arsenate and 10 pounds of talc or gypsum, repeating until vines are several feet long. Young plants should be protected from their first appearance. Do not use lime.

Flea beetles are small flea-like insects which attack cabbage, eggplant, potatoes, tomatoes, turnips and other vegetables, and riddle the leaves with small holes. Use D.D.T. dust or spray.

The potato bug or Colorado beetle, which may also attack egg-plant and tomatoes, is red with black stripes, half inch long. Spray or dust with D.D.T.

Potato leafhoppers are pale green, one-eighth inch long. Also found on beans, swarming on your approach

to the plants, on which they cause leaf-curl. D.D.T. kills them quickly.

Outworms are caterpillars of various moths which hide by day and at night cut off young plants at the soil surface. Protect the plants with collars of heavy paper or cardboard surrounding the stems, extending an inch below the soil surface and two inches above, when the plants are set out.

Squash bugs are reddish brown to black, three-quarter inch long. They lay egg clusters on underside of leaves, and can be controlled by rotenone spray or dust.

The Mexican bean beetle is a black sheep of the lady bug family. Coppery brown, 8 black spots on each wing cover; it eats vines and lays yellow egg clusters on under side of

leaves, which hatch out into larvae with voracious appetites. Plants must be thoroughly sprayed or dusted with rotenone or D.D.T.

Tomato worms are green caterpillars with conspicuous yellow markings, three to four inches long. The worm eats tomato leaves but is easily picked off, or killed by a rotenone or D.D.T. spray or dust.

The corn ear worm is a caterpillar two inches long, striped and marked green and brown, hatched from eggs laid on the young silk. Inject from an oil can a few drops of medical mineral oil in the silk channel of each ear.

Cabbage worms are pale green caterpillars one and one-quarter inch long, hatched from eggs laid by white butterflies, which are found on cabbage, cauliflower and other members of the cabbage family. Dust with rotenone or D.D.T.

Grasshoppers may attack all garden crops and are best controlled by using poison bait.

DEHOFF-STITES WEDDING TAKES PLACE SATURDAY

Mrs. Joanne Elizabeth Stites, daughter of Mr. and Mrs. W. E. Stites, North Queen street, Littlestown, became the bride of Clarence Burnell DeHoff, son of Mr. and Mrs. Thomas DeHoff, Littlestown R. D. at a candlelight ceremony performed Saturday evening at 6 o'clock in St. John's Lutheran church, near Littlestown. The pastor, Rev. Kenneth D. James, officiated at the double ring ceremony held in the presence of a large number of relatives and friends.

The bride was attended by her sister, Miss Nadine Stites, as maid of honor. The groom had as his best man his brother, Thomas DeHoff, Jr. The ushers were Jack Stites, brother of the bride, and Burnell DeHoff, nephew of the groom, of Biglerville.

Wears White Satin
The bride, given in marriage by her father, was attired in a white satin gown, fashioned with a high neckline, fitted bodice, long sleeves ending in points over the hands and full skirt ending in a train. Her finger tip ending veil was of white net, with a cap effect trimmed in seed pearls. She carried a white Bible, a gift of the groom. It was topped with a white orchid with a shower of white satin streamers and tulle. Her only jewelry was a gold cross necklace. The maid of honor wore a lavender marquisette gown with a matching picture hat and she carried an arm bouquet of mixed summer flowers.

Mrs. Malcolm Messinger, Hanover, cousin of the bride's mother, presented a 15 minute organ recital prior to the ceremony, and Mr. Messinger sang "Because" and "O Promise Me." During the ceremony he sang "The Lord's Prayer." After the marriage vows were taken the couple partook of Holy Communion.

Reception Is Held
The chancel of the church was decorated with ferns, palms, white gladioli and lighted candles and the chancel railing with white summer flowers. Immediately following

the ceremony a reception was held in the social room of the church for approximately 125 guests. Out of town guests were present from York, Ephrata, Indiana, Hanover, Gettysburg, Taneytown and Biglerville. The tables were decorated in a pink and white color scheme, and a three-tier wedding cake, topped with a miniature bride and groom, formed the centerpiece of the bride's table.

The couple left on a wedding trip to Niagara Falls and points in Canada. The bride's traveling costume consisted of a cocoa brown suit with brown accessories and she wore an orchid corsage. Mr. DeHoff has been serving with the United States Air Force since December and is at present stationed at Fort Dix, N. J. Mrs. DeHoff was graduated from the Littlestown Junior-Senior high school with the class of 1951.

"We Buy What You Don't Want"

Styled to stay ahead—Hollywood's famed Society of Motion Picture Art Directors selects the new 1951 Packard as the year's "Most advanced concept of automotive styling."

Now that you're buying "for keeps"—

Buy the newest new car of them all!

As every thoughtful person knows: the car you buy today is a car you should be proud to own "for keeps!"

In times like these, it's actually extravagant to buy a lightly built car that begs for frequent trading.

That's the big economy reason why so many far-sighted buyers are now taking the easy step up to their first Packard.

On every important point of comparison, it's the newest, most advanced car of the year.

Beauty: Packard gives you exclusive, award-winning beauty to keep it distinctive, regardless of its age!

Performance: Packard gives you the peak efficiency of new Packard Thunderbolt engines, America's highest-compression engines—plus—the matchless smoothness and efficiency of Packard's exclusive Ultramatic Drive.

Riding comfort: Packard gives you a whole new concept of firm *roadability* and gentle *smoothness* with its famed "Limousine Ride."

Precision-built quality: Packard gives you *long-lasting newness*. Fact: Of all the Packards built, in the last 52 years, over 50% are still in service!

Definitely: It's the car you *must* see . . . and the best time is *now!*

Here And There

News Collected At Random

(Continued from Page 1)

Here's how it happened.

In Pennsylvania, between 1940 and 1950, 347,000 more people moved out of the state than moved into it.

During the same decade, in California 2,655,000 more people moved into the state than moved away from it.

That's the nutshell story, California led the nation in "immigration." Pennsylvania was one of the poorer states in "out-migration." Although over 944,000 more persons were born in Pennsylvania than died here during the 10-year period, the net population gain was only 598,000. That's because 347,000 moved away.

When it is pointed out that the western states gained population at a terrific rate while the eastern states have grown slowly, the excuse is heard that the Atlantic seaboard area is "old" and, naturally, its growth is slow.

Well, unfortunately for Pennsylvania, that does not hold true about migration.

New York State is just as old. Yet, while Pennsylvania has a net "out-migration" of 347,000, New York had a net "in-migration" of 278,000. New Jersey, much smaller than Pennsylvania or New York, had a net "in-migration" of 300,000.

"Old" Connecticut had a net "in-migration" of 111,000 and "old" Maryland had a net "in-migration" of 272,000.

So, the excuse doesn't cover this situation. There must be a missing factor Pennsylvania had better find ingredient "X" to keep its children home.

True, the Keystone State is not the worst in the nation, in population loss through "out-migration."

gration." However, it is not in very distinguished company. Most of the states in the same fix are poor ones which offer little economic opportunity. Some are southern states whose negroes have been drifting away to places where they encounter less prejudice.

For example, the highest net "out-migration" during the 1940-50 decade was in Mississippi. It had 456,000 more people move out than moved in. In Kentucky, 373,000 more moved out. In Alabama, the figure was 369,000. In Arkansas it was 434,000. And so on.

It might be mentioned here that Missouri's net "out-migration" was 204,000. However, if the punters are to be believed, that's a special situation. It is claimed they've all come to Washington to work for the government.

Electronics To Stop Erring Pennys Trains

Philadelphia, June 11 (AP)—The Pennsylvania railroad has announced a million dollar program calling for installation of new electronic controls which automatically stop or slow trains exceeding authorized speeds.

The electronic units stop a train if the engineer himself fails to slow signals. And they slow the engine to the authorized speed if the operator's response does not coincide with a signal.

The PRR already has installed two of the units on locomotives for crew training and on the Broadway Limited. A spokesman said units eventually will be installed on 307 engines, including diesel and steam types.

Harrisburg, June 11 (AP)—Some 3,000 women from all parts of Pennsylvania came to the state capital today for the 57th annual convention of the Order of Eastern Star. The convention opens tonight, with sessions continuing through Thursday. The General Assembly recessed its 1951 session until Monday, June 18, because of the convention.
